The Editor,

"The Times",

Hamilton.

Dear Sir:

On my return from Kingston I find a copy of the article which you wrote for the "Times" of June 2nd on "Canada for the Canadians". Allow me to thank you for the article which is so appreciative of our proposal of unifying the higher education of the Dominion by endeavouring to make Eastern Canada the centre for graduate work, particularly for those who belong to the newer parts of the country. Of course to carry this work out we need financial support. A staff that is already overburdened with undergraduate work cannot undertake at once heavy graduate work, but I believe that the country will back us up in this matter, and I hope that we shall find a steady improvement and development.

Yours sincerely,

President.
